
PROJECT PROFILE

CONSULTING AND PROJECT MANAGEMENT

Fundraising, Volunteer and Community Engagement, Events Management, Program Development
'17 - '21
Birdville Education Foundation

After facilitating a strategic planning phase of work during an interim Executive Director assignment which included a “Beyond the Pink NapkinsSM” event evaluation project, the Birdville Education Foundation board of directors partnered with Project Partners for ongoing board support in all areas: community relations and marketing, nonprofit management, fundraising, event management, community program development, and volunteer/board engagement. The partnership has been a great success, yielding increased community awareness, more donations, and a strengthened program of work. Since 2001, the Foundation has invested more than \$1,596,700 in the campuses and classrooms of the Birdville ISD.

“Wow. Our work with Project Partners has made an immediate and positive impact on our work. Focused strategic planning led to great board and community engagement, fundraising, grants programming, event management and more. What would we do without you?”

Doug Terry, Board President
Birdville Education Foundation
