CONSULTING AND FACILITATION FOR LONG RANGE PLANNING COMMITTEE
WORK AND BOARD RETREAT '15, '19
Sixty and Better

In 2015 and again in 2019, Project Partners was selected by the Long Range Planning Committee to provide consulting and facilitation services for a process of planning and committee meetings, market research, and facilitation of board retreats. Working with members of the Long Range Planning Committee, the Board Chair, and the Executive Director, the process helped the board determine the future direction of Sixty and Better by establishing clarity on five major focus areas to achieve its mission. Watch for continued great work as this fine organization celebrates more than 50 years of service to those older adults in our community who are "sixty and better."

"I have very much enjoyed seeing your work in action and getting to know you through this process. Your knowledgeable, resourceful and eloquent guidance and encouragement have been instrumental to the productive engagement of our board. I will be glad when April rolls around and we can share the fruits of this labor!"

Jennifer Severance, PhD
Assistant Professor, Geriatrics -
University of North Texas Health Science
Center (UNTHSC)
Chair of Long Range Planning Committee
- Sixty and Better

"Thank you so much for your leadership and expertise in facilitating this phase of the process. When I read your summary notes (Board Report), I am gently reminded of how much work we have put forth to get us to this point! Wow! It's really amazing the work we have accomplished. Moving forward, we are in a good place; but still have work to do. You've outlined that really well for us."

Monique Barber, MPH, MBA - CEO
Sixty and Better

PROJECT PROFILE

STRATEGIC PLANNING CONSULTING '23 *Sixty and Better*

The pandemic caused a huge shift in Sixty & Better’s programs for older adults that had defined the organization for more than fifty years. Staff leaders recognized that it was important to assess their current programming to redefine both for themselves and the community what makes their organization unique. With an eye toward the future, Sixty & Better engaged Project Partners to help develop a strategic plan, funded by a Toolbox Grant from the North Texas Community Foundation.

The plan is multi-faceted and provides a roadmap in several focus areas that include programming, fundraising, community engagement, and more. We were honored to work with the team at Sixty & Better to bring into focus what they are doing well and identify ways to pursue opportunities for growth in a post-pandemic world.

“Thank you so much for sharing your expertise. Project Partners continues to impress us with how you were able to take our many ideas and put them into a workable strategic plan.”

Becky Orander, MSW
Executive Director, Sixty & Better
